

Ask Jon Eakes

Identifying Wood.

Last Updated: Friday, May 9th, 2014, Created: Friday, November 16th, 2001

Ken Farr from Natural Resources Canada joined me to talk about identifying wood, something you may want to do to match some old molding, or just to figure out which wood would be best for a given project.

The bottom line is that the books we showed on TV were named:

Trees in Canada

Identifying Wood

Canadian Woods, Their Properties and Uses

A full set of the slices of Canadian woods can be had for \$75 from Forintek in Quebec city, Quebec.

Keywords:

Trees, Wood
