TIP - cleaning leaves out from between deck boards.

Last Updated: Sunday, November 25th, 2001, Created: Saturday, November 24th, 2001

Having trouble getting leaves out from between the boards of your deck? One viewer suggests putting a screw hook on the end of a broom handle and simply fishing them out. If your boards are too close together, tape the end of a clothes hanger onto the handle. It is not as strong, but it is thinner.
