

Ask Jon Eakes

Where can I get training in home improvements or woodworking?

Last Updated: Tuesday, June 4th, 2013, Created: Wednesday, May 8th, 2002

On this TV show I asked on one show for people who offer training to send me their co-ordinates and I will list them on the web, so here they are. If you offer training of some kind, send me a letter and I will add you to the list. I am not able to verify the quality of all of this training so check references before paying out money and if you have any comments about the people listed here, please let me know and I can then check further to see if I keep them on the list. Quebec St. Alphonse de Granby Small classes in woodworking and home improvements. Both beginners and corporate training. syvas99@sympatico.ca
