Storage ideas

Last Updated: Wednesday, September 15th, 1999, Created: Tuesday, September 14th, 1999

This segment took a quick look at a lot of different but easy to find storage bins. I really liked these little aluminum tins with glass tops, used by jewelers to keep their hardware and sometimes their stones. They are called Watchmaker's Cases. The functional key to storage? Be able to see what is inside, and have a place for labels.
