Garbage containers

Last Updated: Wednesday, September 15th, 1999, Created: Tuesday, September 14th, 1999

Stan from Waterloo, Ontario solved the problem of animals in his roadside garbage bin, by building a lighthouse in the middle of a forest. As Stan says, the raised garbage bin on the left was effective, but aesthetically challenged. So they built the garbage bin on the right out of recycled materials from around the cottage. We do have creative viewers.
