Tips for pet proofing your home

Last Updated: Wednesday, March 27th, 2013, Created: Thursday, September 14th, 2000

Jon was joined by Dr John Littlejohn and dog Ben from the Woodbine Animal Clinic in Ontario on this TV segment, to provide tips on pet proofing your home -- running from sprays for furniture and plants, stretchy collars, wire protectors etc. The Bitter Apple product shown in the photo will stop dogs from chewing wires. Some plants are toxic to cats, chocolates are toxic to dogs. You really have to adapt your house, even your house plants, to suit having specific pets in the house.
