# **Clothes Hangers as a raw material for renovations**

Last Updated: Thursday, March 28th, 2013, Created: Thursday, September 14th, 2000

Clothes hangers provide a rigid, often plastic coated, wire that can be used to build or fix just about anything around the house. Even the new plastic type of clothes hangers can be broken up to make clamps and hooks. You'll have to catch the re-run to see the gadgets that I made in minutes with coat hangers. The photo shows my Kleenex box holder.
