What is Air Sealing all about?

Last Updated: Monday, June 25th, 2001, Created: Monday, June 25th, 2001

Sealing air drafts, both inside warm air escaping out and outside cold air sneaking in, is one of the most important things you can do to your house. It will both save you heating dollars and protect the structure of your house. This animation gives you a quick and visual overview of the task at hand.
